

Ministry of Water, Land and Resource Stewardship

ENDED: High Streamflow Advisory – Kingcome, South Coast, Lillooet River, Lower Mainland, Vancouver Island

Issued: 9:00AM October 26, 2025

The River Forecast Centre is **ending High Streamflow Advisories** for:

- Kingcome River
- South Coast including Sunshine Coast, Howe Sound, Sea-to-Sky and surrounding areas
- Lillooet River near Pemberton and tributaries
- Lower Mainland including the North Shore Mountains, Metro Vancouver and tributaries around the Fraser Valley
- Vancouver Island

Weather Synopsis:

Heavy rain has now eased through the region. Additional showers are possible on Sunday.

River Conditions:

Rivers have reached peak levels from this event and are now receding. No significant additional rises in river levels are expected at this time.

The [River Forecast Centre](#) continues to monitor the conditions and will provide updates as conditions warrant.

For information on how to prepare for flood hazards, visit [PreparedBC](#).

BC River Forecast Centre

Ministry of Water, Land and Resource Stewardship

A **High Streamflow Advisory** means that river levels are rising or expected to rise rapidly, but that no major flooding is expected. Fast-flowing bodies of water increase risk to life safety. Minor flooding in low-lying areas is possible.

A **Flood Watch** means that river levels are rising and will approach or may exceed bankfull. Flooding of areas adjacent to affected rivers may occur.

A **Flood Warning** means that river levels have exceeded bankfull or will exceed bankfull imminently, and that flooding of areas adjacent to the rivers affected will result.
