

Ministry of Water, Land and Resource Stewardship

ENDED - High Streamflow Advisory - Kitimat-Kemano, Kingcome River

Issued: 8:00 AM November 2, 2025

The River Forecast Centre is **ending** a High Streamflow Advisory for:

- Kitimat River and Kemano River including tributaries
- Kingcome River

Rainfall has eased through the region. River levels have reached peak levels for this event and are now receding. Additional rainfall is possible later this week, and advisories will be re-issued if required.

The [River Forecast Centre](#) continues to monitor the conditions and will provide updates as conditions warrant.

For information on how to prepare for flood hazards, visit [PreparedBC](#).

BC River Forecast Centre

Ministry of Water, Land and Resource Stewardship

A **High Streamflow Advisory** means that river levels are rising or expected to rise rapidly, but that no major flooding is expected. Fast-flowing bodies of water increase risk to life safety. Minor flooding in low-lying areas is possible.

A **Flood Watch** means that river levels are rising and will approach or may exceed bankfull. Flooding of areas adjacent to affected rivers may occur.

A **Flood Warning** means that river levels have exceeded bankfull or will exceed bankfull imminently, and that flooding of areas adjacent to the rivers affected will result.
