

Ministry of Water, Land and Resource Stewardship

ENDED - High Streamflow Advisory – Haida Gwaii, North Coast

Issued: 12:15 PM December 16, 2025

The River Forecast Centre is **ending** the High Streamflow Advisory for:

- Haida Gwaii
- North Coast including Kitimat, Prince Rupert and surrounding areas

Rainfall has eased through the region. Rivers have reached peak levels and have now receded.

No significant additional rises are anticipated at this time.

The [River Forecast Centre](#) continues to monitor the conditions and will provide updates as conditions warrant.

For information on how to prepare for flood hazards, visit [PreparedBC](#).

BC River Forecast Centre

Ministry of Water, Land and Resource Stewardship

A **High Streamflow Advisory** means that river levels are rising or expected to rise rapidly, but that no major flooding is expected. Fast-flowing bodies of water increase risk to life safety. Minor flooding in low-lying areas is possible.

A **Flood Watch** means that river levels are rising and will approach or may exceed bankfull. Flooding of areas adjacent to affected rivers may occur.

A **Flood Warning** means that river levels have exceeded bankfull or will exceed bankfull imminently, and that flooding of areas adjacent to the rivers affected will result.
